“ *Charlie was my boss, at Capels and then Beckley. He showed me what a just and upright man was suppose to be. He gave me a chance to be a good employee. I am grateful for his support and very proud to have known him. When we first started working together he asked me to show him my key ring. It had one key which was to my car, as I got married, bought a house, lawn mower and other things, he asked again. I showed him and he said as you grow older, you will have many keys. The one one key he talked about most was the key to the gate that is guarded by our heavenly father, if we had that one key our life was complete. I know he had that key and showed it every day. Thank you Charlie for that message.*

“ *Charlie was my supervisor in the Engineering Department at Allied Chemical's Shannon Branch coal mine in McDowell County WV near Welch. I was a young draftsman and filled in as a rodman for the underground surveyor on many occasions. Charlie helped me overcome the fears of going down hundreds of feet on an elevator and miles back under the mountain. His encouragement was instilled in me and remains to this day. He was a great, God fearing man. My deepest condolences to his family. May he rest in peace.*
