“ *Loved the Belton family, watching Rick, Chuck, and Ann Marie grow up with our girls, I loved to hear Pat laugh especially at Wayne's stories. We had a wonderful fellowship together, one night after church we got together after church at our house, I remembered I hadn't been to the store, I had nothing to serve but bologna sandwiches, we enjoyed those sandwiches and talked to 11:00pm. Pat & Wayne teased me about those bologna sandwiches for awhile longer, I loved both of them so much, she is rejoicing now. Praying for family adjusting to the loss. Love all you guys.*

“ Praying for all of the family to draw strength from God and feel His comforting presence around each of you in a very real way. " I pray that out of His glorious riches he may strengthen each of you with power through His Spirit in your inner being." Ephesians 3:16

So blessed to be a part of this precious Belton family by marriage to the late Carl Belton son of the late Betty and Charlie Belton, Jacksonville Florida. You all will always be my family each and every one of you.

God bless you all and give you peace!

“ Pat you will be missed dearly. I loved you and Wayne as my second parents. I know there is some hallelujah shouting going go when our Father and Wayne saw you enter in those heavenly gates. You and Wayne were such and inspiration to me and many others. Love and miss you 💕💕

“ There are so many things that I want to say about “MawMaw Belton”. I called her MawMaw because from the first time I met her, she accepted me as one of her family members. Her granddaughter is married to my nephew, so I had the blessing to be around her during family functions. She was sweet, loving, and very funny. She encouraged me through some physical challenges over the past few years. I am so thankful that I had the opportunity to know her and be loved by her. I lost my parents and grandparents, but she filled that void. I am so grateful that I will see her in heaven and what a joyous reunion that will be. I will miss you MawMaw - Love you forever, LuLu.
